

The Heavy Duty Roll Loader (HDRL) has been designed for easy transport and loading or unloading of heavy rolls. Special attention has been given to health and safety aspects. Now one person can move around and load heavy rolls efficiently and without the risk of injury.

The Heavy Duty Roll Loader can take rolls from storage and transport them to equipment loading stations. The handwinch operates easily and without physical force. The handwinch is equipped with an automatic brake mechanism.

Features:

- Low Frame Design
- Industrial Strength frame
- Swivel casters front and rear
- Mandrell Extensions
- Handwinch with Brake

Benefits:

- Allows loading into low positions
- Heavy Duty Capabilities
- Easy to move around in all directions
- Allow for transporting extra wide rolls
- Moves rolls into position easily and without force

Technical Specifications

Physical Characteristics

Dimensions (HxWxD): 1705 x 1100 x 780 (mm)
Shipping Weight: 170 Kg
Net Weight: 140 Kg

Roll Mandrell:
Roll Diameter: max. 450 mm
Roll Width (Supported): max. 1630 mm
Roll Weight: max. 500 Kg
Lifting Range: 75 mm - 1400 mm

Options:

Electric version (up/down)
